

United States Senate
WASHINGTON, DC 20510-0309

July 8, 2021

The Honorable Patty Murray
Chairman
Labor, Health and Human Services,
Education, and Related Agencies
Committee on Appropriations
U.S. Senate
Washington, D.C. 20510

The Honorable Roy Blunt
Ranking Member
Labor, Health and Human Services,
Education, and Related Agencies
Committee on Appropriations
U.S. Senate
Washington, D.C. 20510

Dear Chairman Murray and Ranking Member Blunt:

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2022 Labor, Health and Human Services, Education, and Related Agencies appropriations bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate.

Sincerely,

A handwritten signature in blue ink that reads "Mark Kelly". The signature is written in a cursive style with a large initial "M" and a stylized "K".

Mark Kelly
United States Senator

**Kelly, Mark(D-AZ) Labor and Health and Human Services
Congressionally Directed Spending Requests**

Recipient Name	Project Purpose	Project Location	Amount Requested (\$000)
Superstition Fire & Medical District	Life Pak 15 Heart Monitors: This funding will be used to upgrade 15 cardiac monitors that are nearing the end of their projected service life. These cardiac monitors are an integral part of the Superstition Fire and Medical District's advanced life support service.	Apache Junction AZ	\$133
Superstition Fire & Medical District	Cardiopulmonary Resuscitation (CPR) Device Implementation: This funding will be used for implementation of a CPR device that provides high quality compressions delivered automatically, allowing first responders to expedite the use of other lifesaving tools and enhance the survivability of patients who are in cardiac arrest.	Apache Junction AZ	\$116
Benson Hospital Corporation	Mobile MRI for Cochise County: This will fund a mobile MRI for Cochise County, a large and rural county in Southern Arizona, for use by three nonprofit community health systems to better diagnose and care for patients.	Benson AZ	\$2,000
Chiricahua Community Health Centers, Inc.	Rural Healthcare Workforce Training Center: Chiricahua Community Health Centers is the only FQHC serving Cochise County and has nine clinics, eight mobile clinics, and hundreds of employees. Cochise County lacks an adequate location to conduct the initial and continuing education programs needed for its health care workforce. This funding will allow for the creation of such a space that can be used not just by Chiricahua Community Health Center, but by other health and nonprofit entities as well.	Bisbee AZ	\$628
Creek Valley Health Clinic	Dental Clinic at Creek Valley Health Clinic: Colorado City lacks a local, affordable dental clinic, and its residents are forced to either drive hours for dental care or to go without it. This would fund the extension of Creek Valley Health Clinic to allow for 8 dental operatories, a separate waiting room, and offices, allowing the clinic to offer the first local, affordable dental care to the community.	Colorado City AZ	\$700
Mountain Park Health Center	Glendale Community Health Center Clinic: This funding would support a new clinic that will provide pediatric care, family medicine, women's health, behavioral health, and registered dietician services from a proven Community Health Center network to a southern Glendale community where residents are more likely to have low incomes, be uninsured, and have chronic health conditions.	Glendale AZ	\$2,500
City of Phoenix	Edison Impact Hub: This project will renovate a vacant former hospital building to a community services center, named the Edison Impact Hub, in the Edison-Eastlake Community. The Edison Impact Hub will house a medical and behavioral health clinic (FQHC), a community commercial kitchen and garden, and workspace and training for small businesses. These services align with the community-driven neighborhood transformation plan, which is supported by residents and stakeholders.	Phoenix AZ	\$1,000
Williamson Valley Fire and Mayer Fire Districts	15-Lead Cardiac Monitors: This funding will be used to purchase six 15-lead cardiac monitors (three each) for Williamson Valley Fire District and Mayer Fire District. Both fire districts have Intergovernmental Agreements in place for shared resources and are managed by the same Fire Chief.	Prescott AZ	\$160
Fry Fire District	Fry Fire District Cardiac Monitors: This funding will be used to purchase cardiac monitors so the fire district, which has been stretched to assist with COVID-19 in the community, can continue to provide adequate emergency services.	Sierra Vista AZ	\$105
Arizona State University	Arizona State University Research on Missing and Murdered Indigenous Women: This funding would enable a mostly Indigenous group of researchers and practitioners to compile data and information about the ongoing issue of Indigenous women in Arizona going missing and being murdered at rates higher than any other ethnic group. This program would also support partnerships with law enforcement to better educate, train, and document crimes against Indigenous peoples, and to share research findings with Indigenous communities.	Tempe AZ	\$175

Tuba City Regional Health Care Center	Tuba City Long Term Care, Skilled Nursing and Cancer Treatment Facility: The Navajo Nation lacks the capacity to adequately provide long-term care, skilled nursing, and oncology services, requiring many Navajo seniors to travel long distances and even move off of the Nation in order to access them. This project would fund the construction of facilities on the Navajo Nation to care for seniors so that they can age with dignity near their families.	Tuba City AZ	\$3,000
Pima Community College District	Pima Community College Flexible Industry Training: This funding will provide the equipment needed for the Flexible Industry Training (FIT) Lab at Pima County College's new Center of Excellence in Applied Technology, ranging from 3D scanners and printers, to foundry and casting equipment, to electronic assembly tools, laser cutters, robotic arms and probes, and electronic wiring trainers. This center will partner with business and industry to train and upskill employees to meet the needs of the labor market and get good-paying jobs.	Tucson AZ	\$1,000
Yuma Multiversity Campus Corporation	Yuma Multiversity Campus: These funds will be used to leverage local investments to improve education programs. The Yuma Multiversity Campus Corporation works with local employers to ensure local students are receiving degrees and training necessary for the local economy.	Yuma AZ	\$2,500
