

Breakdown of Federal Investments Secured by Kelly and Sinema in the Final Annual Government Funding Bill for FY24

		Investment	
Project Name	Recipient	Amount	Project Purpose
Small Business Support Program	Local First Arizona Foundation	\$1,000,000	This project will allow Local First Arizona to increase its support programs that help Arizona small businesses grow and thrive.
Desert Sunrise High School Flood Prevention	City of Maricopa	\$1,383,000	This project will construct a box culvert near the entrance to Desert Sunrise High School on Murphy Road. Currently, Murphy Road has no drainage, causing weather events to regularly impede access to the school.
Emergency Operations Center	Coconino County Emergency Management	\$637,000	This project will enhance the Coconino County Emergency Management's Emergency Operations Center (EOC) and establish remote EOC capabilities to support on-scene operations.
Maricopa County: New Emergency Operations Center Technology Installation	Maricopa County Department of Emergency Management	\$1,507,000	This project will assist in updating the current Maricopa County Emergency Management building and equipping it with modern technology. Once completed, this project will ensure the county has the necessary emergency response capabilities.
al Emergency	Tohono O'odham Nation Western Police & Fire Substation/Regiona I Emergency Operations Center	\$1,000,000	This project will support construction of a new joint permanent base of operations for fire, police, and EMS. It will improve emergency response times, foster collaboration between public safety components, and deliver joint public safety service.
Arizona Semiconductor Workforce Accelerator	Arizona Commerce Authority	\$2,000,000	This project will design and provide equipment necessary to establish a new Semiconductor Workforce Accelerator, a state-of-the-art training facility designed to prepare Arizonans for semiconductor industry jobs.
Axiom Community of Recovery	Axiom Community of Recovery	\$638,000	This project will establish a a continuum of care that provides long-term recovery housing as well as peer-led services and supports for individuals receiving inpatient substance use treatment and outpatient long term recovery support services

			This project will support the Barrow Neurological Institute
Barrow			Data Science Center, a multidisciplinary research center
Neurological	Barrow		focusing on the use of administrative healthcare and
Institute Data	Neurological		electronic medical record data to study neurologic
Science Center	Foundation	\$1,053,000	diseases.
	Canyonlands Healthcare	\$2,500,000	This project will replace and expand the existing, structurally unsound, Canyonlands Community Health Center. The completion of this facility will allow for more patient visits, the addition of behavioral health services, and more telehealth capabilities.
Chiricahua			
Community Health			
	Chiricahua		This project will equip the new medical and dental clinic in
Dental and Medical	1		the rural town of Willcox, AZ with the necessary
Clinic Equipment	Centers, Inc.	\$789,000	equipment to expand access to medical and dental care.
Circle the City Medical Respite Care	Circle the City	\$500,000	This project will support Circle the City's renovation of a medical office building in Mesa, helping to establish a facility with 100-120 medical respite care beds for patients facing homelessness.
	North Country HealthCare, Inc.	\$1,734,000	This project will complete construction and alteration of a permanent health center that will increase patient capacity and add specialized departments to North Country HealthCare in Winslow.
	Creighton University Health Sciences	\$1,450,000	This project will enable Creighton University Health Sciences to build and operate a virtual reality room that will allow faculty to program an array of health care scenarios into a series of computers, projectors, cameras, etc.
	Mount Graham Regional Medical Center	\$500,000	This project will enable the Mount Graham Regional Medical Center to acquire PET/CT scanning equipment. No facility in southeast Arizona has PET/CT scanning equipment, making treatment for diseases such as cancer unavailable in the area.
Pinal County Telecommunicatio ns Initiative	Central Arizona College	\$1,024,000	This project will set up a two-week training program at Central Arizona College (CAC) for entry-level jobs in the fast-growing telecommunications industry.
Workforce Training	Maricopa Community Colleges	\$2,500,000	This project will provide additional programming needed for semiconductor technician training and the development of additional training locations for greater access to jobs in the West Valley.
	WestCare Arizona, Inc	\$303,000	This project will rehab an existing outpatient and administrative office owned by WestCare Arizona and construct a Community Crisis Center.

· •	White Mountain Regional Medical Center		This project will expand and improve the White Mountain Regional Medical Center's emergency department by renovating existing space and expanding the building, increasing the current 5 licensed beds to 9 licensed beds.
Yuma Regional Medical Center - Increasing Access to Life-Saving Cancer Treatment in Southwestern Arizona	Yuma Regional Medical Center	\$1,500,000	This project will expand the radiation therapy department and modernize the linear accelerator equipment housed there to expand access to life-saving cancer care, promote health equity and create new jobs.
Total		\$25,018,000
