

Breakdown of Federal Investments Secured by Kelly and Sinema in the First Annual Government Funding Bill for FY24

Agriculture, Rural Development, Food and Drug Administration, and Related Agencies			
Project Name	Recipient	Investment Amount	Project Purpose
Drain Mitigation and Design Project	Town of Duncan	\$274,000	This project will support the permanent installation of 20 culverts to address long-standing flooding issues.
Colorado City Flood Control Project	Town of Colorado City	\$55,000	This project will allow Colorado City, AZ to carry out a Preliminary Investigation Feasibility Report to enable flood control and erosion prevention in the Short Creek Wash. Short Creek Wash runs through the center of Colorado City and periodically floods.
Pinetop Wildland Fire Response Station	Pinetop Fire District	\$3,274,000	This project will construct a new wildland fire response station, which will house the district's wildland fire response division. Pinetop Fire District serves a high-risk wildfire community, and this new facility will prevent and combat area wildfires.
Douglas Police Department Building Restoration	City of Douglas	\$455,000	The City of Douglas Police Department is housed in a historic building that dates back to the 1910s, and needs repairs to the roof, drainage system, and foundation. This project will enable these long overdue repairs.
Santa Cruz County Animal Shelter	Santa Cruz County Animal Shelter	\$500,000	The project will retrofit an existing county building and convert it into an animal shelter.
Hospital Facilities Improvements	Northern Cochise Community Hospital	\$859,000	This project will support the reconstruction of the north entrance and emergency room canopies at Northern Cochise Community Hospital. The current entrance facilities cannot accommodate modern-day vehicle sizes, causing collisions and delays.
Pleasant Valley Veterans Retreat	Gila County	\$333,000	This project will convert a former Forest Service fire station into a service center that will help veterans recover from service-related injuries and trauma. This project is a collaborative effort between Gila County and the State of Arizona.

Huachuca City Fire Protection	Town of Huachuca City	\$336,000	This project will allow Huachuca City to replace their aging fire engine and purchase a new rotary tractor/mower to replace the town's currently inoperable mower to better prevent and respond to fires.
Commerce, Justice, Science, and Related Agencies			
Project Name	Recipient	Investment Amount	Project Purpose
Pima County Sheriff's Department Radio Upgrades	Pima County Sheriff's Department	\$3,520,000	This will replace 500 radio systems that are beyond their end of life and in need of replacement to maintain public safety and provide timely communication and emergency response.
Bisbee Police Department Vehicle Upgrades	City of Bisbee	\$210,000	The Bisbee Police have an aging fleet of patrol vehicles, several of which are no longer rated for pursuit. This project will acquire three new patrol vehicles to replace the department's oldest vehicles.
Peoria Police Negotiation Response Vehicle	City of Peoria	\$103,000	This will enable Peoria to acquire a crisis negotiation response vehicle for Crisis Negotiation Team. The vehicle will provide adequate working space and storage for essential specialized CNT equipment used during police negotiations.
La Paz County SWAT Team Response Vehicle	La Paz County Sheriff's Office	\$305,000	This project will allow the La Paz County SWAT team to acquire a response vehicle that will support the SWAT team's ability to respond to critical incidents throughout the county.
Navajo County Public Safety Communications	Navajo County	\$2,307,000	This project will improve public safety in Navajo County by improving regional medical dispatch centers, upgrading law enforcement radios, acquiring a mobile cell tower, and upgrading radio towers throughout the county.
Pima County Adult Detention Complex	Pima County Sheriff's Department	\$458,000	This will upgrade the entrance to the Adult Detention Complex by adding screening equipment and barriers to protect against threats and increase safety.
Florence Public Safety Communications	Town of Florence	\$1,230,000	This project will replace the existing, obsolete dispatch communications system with four new dispatch consoles to provide effective communications among public safety personnel and the dispatch center for the Florence Police Department.
Queen Creek Police Department Equipment	Town of Queen Creek	\$1,948,000	This will support the acquisition of a mobile command vehicle, portable vehicle barriers, a rapid response truck, and ballistic protection for police personnel for the Town of Queen Creek.

Cochise County Sheriff's Office Communications Upgrades	Cochise County Sheriff's Office	\$981,000	This project will allow for the purchase of satellite communications equipment with multi transport LTE systems to help deputies better communicate with each other in the field.
---	---------------------------------	-----------	---

Energy and Water Development and Related Agencies

Project Name	Recipient	Investment Amount	Project Purpose
Central Arizona Irrigation and Drainage District Wells	U.S. Army Corps of Engineers	\$1,823,000	During a historic drought, this project will drill three new water wells and install transmission lines to serve Pinal County farmers.
City of Tempe Groundwater Recharge Well	U.S. Army Corps of Engineers	\$1,890,000	These funds will provide recharge capacity for the Kyrene Reclamation Facility to allow the City of Tempe to store its reclaimed water for future recovery and improve its drought resiliency.
City of Winslow Water Storage Tank Replacement	U.S. Army Corps of Engineers	\$2,500,000	This project allows the City of Winslow to replace the city's water storage tank from the 1950s with a larger and more resilient storage system. Failing to replace this aging water tank could lead to water shortages if it were to fail.
New Magma Irrigation and Drainage District Transmission	U.S. Army Corps of Engineers	\$1,500,000	This project will build a water transmission system that allows farmers in Pinal County to use treated wastewater as a replacement for Colorado River water.
ASU Center for Clean Energy Materials	Arizona State University	\$3,000,000	This project supports the purchase of equipment for a new Center for Clean Energy Materials, which will research ways to build more resilient and sustainable supply chains for critical minerals used in industries like batteries and semiconductor manufacturing.

Interior, Environment, and Related Agencies

Project Name	Recipient	Investment Amount	Project Purpose
Tempe Recharge Wells Pipelines	City of Tempe	\$959,752	These funds will construct pipelines to deliver reclaimed water from the Kyrene Reclamation Facility to recharge wells to improve the city's water management and drought resiliency.

Tolleson Wastewater Digester Rehabilitation	City of Tolleson	\$959,752	The Tolleson WWTP provides treatment to the cities of Tolleson, Youngtown, and Sun City, Arizona. Digester #4 is a piece of equipment that has been in an inoperable state since 2010 and needs major rehabilitation. This would increase the plant's solids (sludge) handling capacity/capabilities and position the plant to serve additional communities in the region, as wastewater capacity in the region is critical to addressing the rapid growth in the state. ↘
Tucson Water Recharge Expansion Project	City of Tucson	\$1,250,000	This project would add a fourth basin to expand recharge capacity to 8,000 acre-feet per year further increasing its beneficial use as a renewable resource. The additional basin will provide a reliable and sustainable source of water in an area of the Tucson Basin where the aquifer is observing declining groundwater level trends due to limited natural recharge ensuring a reliable source of water for generations to come.
Gilbert Rehabilitation of Stormwater Pump Station	Town of Gilbert	\$600,000	This will upgrade an aging pumping station's controls and backup power connection to reduce flooding at a below grade railroad crossing located in a key economic and transportation corridor for the area.
Mesa AMI Smart Meters	City of Mesa	\$800,000	This project will allow the City of Mesa to better monitor water usage at homes and businesses and prevent water loss.
Mesa Water Main Improvements	City of Mesa	\$959,752	These funds will allow the City of Mesa to purchase equipment to inspect and repair its water transmission mains to maximize the efficiency of the distribution system to reduce water loss.
Tolleson Drinking Water Storage Tank	City of Tolleson	\$959,752	The City of Tolleson has a drinking water storage tank that is beyond repair. This project will install a new 2-million-gallon storage tank, which will allow the City to establish redundancy to meet peak demands.
Cave Creek Water Supply Interconnect	Town of Cave Creek	\$2,000,000	This project will create a new connection with the City of Phoenix water system to provide a backup drinking water supply for a system that currently relies on a single pipeline to serve its thousands of residents and the Carefree Water Company.
Tucson Randolph Park PFAS Project	City of Tucson	\$2,250,000	This project will build and install a new well and treatment system to maintain and capture an existing PFAS plume. The project will prevent further migration of the PFAS plume into Tucson Water's central wellfield.

Glendale Well Rehabilitation	City of Glendale	\$1,000,000	Glendale uses groundwater wells to supplement its drinking water supply. This project rehabilitates existing well sites, including pipelines, mechanical, electrical, instrumentation and controls equipment to improve water production, and quality.
Mesa Groundwater Well	City of Mesa	\$1,000,000	This project will install a new groundwater well to provide potable water for the southeast region of Mesa and its surrounding areas. This system will add resiliency to the City's drinking water system, as a critical drought in the region worsens.
Camp Verde Drinking Water System Upgrades	Town of Camp Verde	\$2,000,000	In 2022, Camp Verde purchased a local water system. This project will enable the city to make needed upgrades to the system, to ensure the groundwater meets state and federal water quality targets.
Clarkdale Groundwater Well and Treatment Plan Design	Town of Clarkdale	\$1,000,000	This project will bring a new well, storage tank, and arsenic treatment plant for the Town of Clarkdale by enabling the city to fully plan and design a new water treatment system that adds redundancy and improves regional water quality.
Prescott Valley PFAS Treatment and Recharge Wells	Town of Prescott Valley	\$2,100,000	This project would allow for the removal of PFAS/PFOS from treated wastewater and direct injection of this treated water into the aquifer, which will support regional water conservation efforts while protecting water quality.
Coconino County Upper Rio de Flag Watershed Project	Coconino County	\$2,000,000	In 2022, the Pipeline Fire burned through a significant portion of the Schultz Creek watershed, causing flooding in Flagstaff. This project will carry out watershed restoration work on Forest Service land to mitigate the risk of flooding.
Military Construction, Veterans Affairs, and Related Agencies			
Luke Air Force Base Child Development Center	Luke Air Force Base	\$2,700,000	This project will construct a new facility capable of serving 250-300 children of servicemembers stationed at Luke AFB. The current Center at Luke AFB is aging and unable to serve the current needs of servicemembers and their families.
Gila Bend Consolidated Facility Planning & Design	Luke Air Force Base (Gila Bend Auxiliary Airfield)	\$2,200,000	This project will allow for the planning and design to replace the Control Tower, Fire Station, and Base Operations Complex at Gila Bend Auxiliary Airfield, to support ongoing operations at the field used by Luke Air Force Base.
Davis Monthan Guardian Angel Preservation of the Force and Family (POTFF) Facility	Davis Monthan Air Force Base	\$8,500,000	This project will construct an Air Force Reserve POTFF facility to provide proper space for strength training, physical therapy, rehabilitation, mental health, and family counseling, all vital components of troop readiness.

MCAS Yuma Water Treatment Plant	Marine Corps Air Station (MCAS) Yuma	\$8,900,000	This project will support the construction of a new water treatment plant to serve the Marine Corps Air Station at Yuma. The current water treatment plant was built in 1947 and is in dire need of replacement to guarantee water quality for Marines and their families.
Transportation, Housing and Urban Development, and Related Agencies			
Land Acquisition Initiative for Prescott Airport Protection	City of Prescott	\$3,000,000	This project will allow for an enhanced safety zone for incoming and departing planes, and would allow for future runway expansion, supporting future growth for the City of Prescott.
Buffalo Solider Trail Reconstruction Phase I	City of Sierra Vista	\$3,792,927	This project will allow for the Design and Reconstruction of Buffalo Soldier Trail which carries approximately 20,000 vehicles per day, operating as a bypass between SR90 and SR92 and links highway traffic to Sierra Vista and Fort Huachuca Army Installation.
Campbell Avenue Extension	Town of Sahuarita	\$3,000,000	This project will extend and improve the Campbell Avenue roadway for an additional 1-mile, from its current terminus to Whitehouse Canyon Rd.
Thornton Road Widening	City of Casa Grande	\$3,795,000	This project will widen Thornton Road to two lanes in the southbound direction and one lane in the northbound direction. Due to increasing traffic related to new manufacturing jobs in Casa Grande, the need for safety and traffic flow improvement has been identified on Thornton Road from Cottonwood Lane to Main Avenue.
Intelligent Transportation System (ITS) and Dilemma Zone Advance Detection Technology Upgrades	City of Goodyear	\$500,000	This project will procure and upgrade Intelligent Transportation System controllers and technology to add an important safety feature of Dilemma Zone Advance Detection to prevent traffic accidents.
Roadway and Pedestrian Safety Improvements	Town of Guadalupe	\$1,616,279	The funding will be used for reconstruction of Calle Guadalupe from the I-10 overpass to the town limits. Calle Guadalupe is an important thoroughfare, providing access in and out of the Town of Guadalupe.
Agua Fria Trail Phase 2 Pedestrian Bridge	City of Avondale	\$500,000	This project will improve accessibility for local residents by connecting two separated paths located on the south and north sides of the drainage channel immediately north of I-10.

Ruby Road Bridge over the Potrero Creek and Union Pacific Railroad	Santa Cruz County	\$3,600,000	This project would replace the Ruby Road Bridge over Potrero Creek and create a grade separated crossing for the Union Pacific Railroad line. This would improve safety and connectivity for this underserved community.
Casa Grande Ash Roundabout	City of Casa Grande	\$2,500,000	This project will demolish and mediate an asbestos-filled site for the creation of a new Headquarters Fire Station for the growing city of Casa Grande.
Oro Valley Honeybee Wash Bridge Deck Repairs, AZ	Town of Oro Valley	\$685,000	This project will repair bridge deck delamination and cracking on several bridges within the town's roadway network.
Tolleson I-10 Frontage Road	City of Tolleson	\$3,600,00	This project is to address traffic congestion and safety concerns in the area of 91st Avenue and I-10. Currently, there is not a connection between 99th Ave and 91st Ave at I-10.
Valley Metro Electric Accessible Microtransit Vehicles	Valley Metro	\$1,382,00	This project will allow for the purchase of seven electric accessible small vehicles and related infrastructure connectors to provide more flexible transit options.
Chandler Micro Flex	Valley Metro	\$1,000,000	This project will expand the City of Chandler's microtransit service that provides an on-demand public transportation option for residents. With this assistance, the city will be able to operate in more areas and increase the hours of operation.
Valley Metro Electric Buses	Valley Metro	\$500,000	This project will support Valley Metro's efforts to improve the region's air quality by purchasing five electric buses as well as the associated infrastructure to help transition to a zero-emission bus fleet.
Gila River Linear Park and Trail	Graham County	\$1,300,000	This project will support the construction of the Gila River Linear Park and Trail. These funds will support the first phase, which is a 4.2-mile segment (of a planned overall seven miles) of river trail lying just north of Safford and Thatcher city/town limits.
South 10th Avenue Affordable and Mixed-Income Housing Development – Pre-Development Infrastructure	City of Tucson Housing & Community Development	\$4,000,000	This project will upgrade a city-owned 12-acre site with the infrastructure necessary to support new development. Preparing the site will allow the City to move forward with an affordable and mixed-income housing project.
The Justa Center Building Construction	Area Agency on Aging, Region One, Incorporated	\$850,000	This funding will be used to construct a new building to house the Justa Center, which provides life-sustaining services to older adults experiencing homelessness.

CASS Senior Haven- Emergency Housing for Senior Citizens	Central Arizona Shelter Services	\$1,500,000	This funding will support The Haven Senior Center, which will provide emergency housing for senior citizens in a non-congregate hotel setting with a bed capacity of 170.
Downtown Douglas Revitalization Streetscape	City of Douglas	\$2,900,000	This project will update roads and sidewalks in Douglas to improve safety and support economic growth.
Somerton Main Street Redevelopment Project	City of Somerton	\$1,000,000	This project will provide for more effective storm drainage, repavement, and improved sidewalks for Somerton's Main Street, supporting increased economic development.
El Pueblo Multi-Generational Outdoor Activity Complex	City of Tucson	\$500,000	This project supports the construction of a community plaza as part of the City of Tucson's El Pueblo Multi-Generational Outdoor Activity Complex.
Baffert Mountain Point Development	Chicanos Por La Causa, Inc	\$3,000,000	This project will support the development of a senior independent living facility.
North Tempe Affordable Housing Revitalization	City of Tempe	\$1,666,279	This project will help the City of Tempe address the Valley's need for affordable housing by renovating a motel to provide multi-family affordable housing for families, seniors, veterans and those with disabilities. This project will add an additional 100 units of affordable rental units to the city's housing supply.
Facility Renovation	Junior Achievement of Arizona	\$700,000	This project will renovate Junior Achievement's BizTown Facility to allow for the continued delivery of career and financial literacy education to low-income elementary and middle school students.
Town of Eagar Fiber Expansion Project	Town of Eagar	\$1,500,000	This project will expand on a new broadband fiber project to get high-speed internet connections to more town residents.
PCC Center of Excellence in Health Professions Technology	Pima Community College	\$2,500,000	This project will provide Pima Community College with training equipment and specialized infrastructure needed for the Center of Excellence in Health Professions Technology and the Simulation Center.
Hotel Conversion for Senior Permanent Supportive Housing	City of Phoenix	\$3,000,000	This project will provide needed renovations to a 120-room former hotel to convert it to Permanent Supportive Housing for seniors experiencing homelessness.
Innovation 27 Workforce and Education Collaborative	City of Phoenix	\$2,000,000	This project will convert a long-closed retail facility into an innovation and education center that will partner with higher education institutions to provide career training programs to high school and adult learners.

Total	\$125,887,493.00
