

United States Senate  
WASHINGTON, DC 20510-0309

COMMITTEES  
SPECIAL COMMITTEE ON AGING  
COMMITTEE ON ARMED SERVICES  
COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS  
SELECT COMMITTEE ON INTELLIGENCE  
JOINT ECONOMIC COMMITTEE

April 15, 2026

The Honorable Lisa Murkowski  
Chair  
Subcommittee on Interior, Environment,  
and Related Agencies  
Committee on Appropriations  
U.S. Senate  
Washington, D.C. 20510

The Honorable Jeff Merkley  
Ranking Member  
Subcommittee on Interior, Environment,  
and Related Agencies  
Committee on Appropriations  
U.S. Senate  
Washington, D.C. 20510

Dear Chair Murkowski and Ranking Member Merkley:

I certify that neither I nor my immediate family have a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2027 Senate Interior, Environment, and Related Agencies appropriations bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate. I further certify that none of the entities for which I have requested congressionally directed spending are for-profit entities.

Sincerely,

Mark Kelly  
United States Senator

**Kelly, Mark(D-AZ) Interior and Environment  
Congressionally Directed Spending Requests**

<b>Recipient Name</b>	<b>Project Purpose</b>	<b>Project Location</b>	<b>Amount Requested (\$000)</b>
City of Apache Junction	Apache Junction Water Supply Well – This project will drill and equip a new groundwater well to improve water supply reliability and reduce reliance on Colorado River water.	Apache Junction AZ	\$2,400
City of Bisbee	Bisbee Wastewater Treatment Plant Improvements – This project will rehabilitate and upgrade Bisbee’s wastewater treatment plant to improve water quality, prevent sewage overflows, and support groundwater recharge.	Bisbee AZ	\$1,500
City of Buckeye	Buckeye Water Reclamation Facility Flood Protection – This project will construct a levee around the Buckeye Central Water Reclamation Facility to prevent flooding and protect wastewater service for over 10,000 customers.	Buckeye AZ	\$4,000
City of Bullhead City	Bullhead City Water Transmission Infrastructure – This project will construct a transmission main connecting wells to a reservoir to improve water supply reliability.	Bullhead City AZ	\$3,000
City of Surprise	Surprise Water Line Replacement – This project will replace aging water lines in the Circle City, AZ, area to improve reliability and meet current standards.	Circle City AZ	\$2,000
Town of Clarkdale	Clarkdale Water Storage Tank Replacement – This project will construct a new water storage tank to replace an aging system and improve reliability.	Clarkdale AZ	\$2,400
Centennial Park Domestic Water Improvement District	Centennial Park Water System Master Plan and Study – This project will develop a 20-year master plan for the Centennial Park water system that serves rural areas in northern Mohave County to improve drinking water quality and system reliability.	Colorado City AZ	\$175
Congress Domestic Water Improvement District	Congress Water District Well – This project will construct a new groundwater well to restore water supply and improve reliability in rural Congress, AZ.	Congress AZ	\$1,000
City of Cottonwood	Cottonwood PFAS Mitigation – This project will install a treatment system at the Mingus Wastewater Treatment Plant to remove contaminants and protect groundwater.	Cottonwood AZ	\$630
City of Douglas	Douglas Wastewater Infrastructure – This project will construct sewer lines to support the new Douglas Commercial Port of Entry and expand service to surrounding areas.	Douglas AZ	\$4,000
City of Douglas	Douglas Water Infrastructure – This project will construct water lines to support the new Douglas Commercial Port of Entry and expand access to reliable drinking water.	Douglas AZ	\$2,500
Tri City Regional Sanitary District	Tri-City Regional Sanitary District Sewer Infrastructure – This project will construct sewer infrastructure to expand service and connect residents to a centralized system.	Gila County AZ	\$3,000
Town of Gilbert	Gilbert PFAS Treatment Facility Design – This project will design a treatment system to remove contaminants from drinking water.	Gilbert AZ	\$1,500
City of Goodyear	City of Goodyear Soil Aquifer Treatment Site – This project will construct pipes and other infrastructure to increase groundwater recharge and improve long-term water supply reliability.	Goodyear AZ	\$3,200
Town of Hayden	Hayden Sewer System Improvements Phase II – This project will replace failing sewer lines to prevent system failures and protect public health.	Hayden AZ	\$2,100
Town of Huachuca City	Huachuca City Water Meter Modernization – This project will replace outdated water meters with modern systems to improve efficiency and detect leaks.	Huachuca City AZ	\$275

City of Kingman	Kingman Water Line Replacement – This project will replace aging water service lines to reduce leaks, improve reliability, and enhance fire flow capacity.	Kingman AZ	\$1,500
City of Mesa	Mesa Water Transmission Main – This project will construct water transmission infrastructure to connect groundwater wells to a treatment plant and improve system reliability.	Mesa AZ	\$1,164
Hopi Tribe	Hopi Tribe Wastewater System Improvements – This project will upgrade the wastewater system serving Upper and Lower Moenkopi Villages to improve reliability.	Moenkopi Village AZ	\$2,000
Escudilla Mountain Domestic Water Improvement District	Escudilla Mountain Water System Improvements – This project will connect two water wells and construct infrastructure to provide reliable drinking water to residents in the Nutrioso, AZ area.	Nutrioso AZ	\$750
Colorado River Sewage System Joint Venture	Colorado River Sewage System Treatment Facility Replacement - This project would fund the construction of a new wastewater treatment facility to serve the Town of Parker and the Colorado River Indian Tribes.	Parker AZ	\$4,000
Hualapai Tribe	Hualapai Tribe Route 66 Historic Preservation – This project will honor the Route 66 centennial by restoring the historic Osterman Gas Station in Peach Springs, AZ, a nationally significant Route 66 landmark.	Peach Springs AZ	\$500
Hualapai Tribe	Hualapai Tribe Water Transmission Improvements – This project will replace aging water pipelines serving Peach Springs, AZ, to improve reliability and safety.	Peach Springs AZ	\$3,000
Town of Quartzsite	Quartzsite Wastewater and Reuse Infrastructure – This project will expand wastewater infrastructure and develop systems to reuse treated water.	Quartzsite AZ	\$1,600
Town of Queen Creek	Queen Creek Water Line Replacement – This project will replace aging residential water lines to improve reliability.	Queen Creek AZ	\$2,000
Gila River Indian Community	Sacaton Diversion Dam Design – This project will design improvements to a diversion dam to support water conservation and improve efficiency.	Sacaton AZ	\$2,058
Town of Sahuarita	Sahuarita Wastewater Treatment Facility Improvements – This project will upgrade treatment systems to improve reliability and reduce maintenance needs.	Sahuarita AZ	\$3,600
City of Tolleson	Tolleson Water Storage Tank – This project will construct a two-million-gallon water storage tank to increase capacity and improve system reliability.	Tolleson AZ	\$2,500
The University of Arizona	Arizona Geothermal Survey Equipment – This project will purchase equipment to identify and evaluate geothermal energy resources across Arizona.	Tucson AZ	\$2,485
City of Williams	Williams Wastewater Treatment Plant Expansion – This project will expand the wastewater treatment plant to increase capacity and support growth and tourism.	Williams AZ	\$4,000
